

We can't do it alone

During a large-scale disaster, the demand for resources will be great. While local government and first response agencies will mobilize to assist our communities, there simply will not be enough resources for everyone who needs it. This is where the Riverside County Business Emergency Operations Center (BEOC) comes into play.

Our Mission

The mission of the BEOC is to collaboratively integrate the business and government sectors in all phases of emergency management, expand resource capability through situational awareness, and strengthen the whole community.

Business Emergency Operations Center

*Helping build resiliency through
improved collaboration*

What we do

Connecting goods and services with resource providers.

Integrate businesses into the Incident Command System.

Training and exercises to improve business resiliency.

WHY JOIN?

Your company serves Riverside County residents and other businesses. From offering your core services, you have left a mark on the local community. Historically following large disasters, businesses have been the backbone of helping communities recover faster. Businesses inherently create resiliency by getting back in business after a disaster.

In a catastrophic event, your business has the opportunity to be a part of the bigger picture. Make your efforts go further by integrating into a network of Riverside County businesses mobilizing resources for the areas of greatest need.

WHO CAN BECOME A PARTNER?

Partnership with the BEOC is open to private sector businesses that can respond to the BEOC during large scale events and disasters. Partnership is open to all Riverside County businesses, including large, world-wide corporations and local, family-owned businesses.

Participation is voluntary with no paid stipends. A BEOC Partner Agreement must

**Contact the
Emergency
Management
Department
today to join.**

be completed and submitted to the County of Riverside Emergency Management Department.

WHAT WILL BE REQUIRED OF ME?

There is no fee to participate but we do ask for a minimal time commitment required prior to a disaster for training and exercise purposes. These commitments may be delegated to multiple representatives within your company, and include completing training and quarterly meetings.

In a disaster situation, business partners serve in either a physical or virtual BEOC.
